Requirement to student mapping

Member 1 — Data & UX lead

Name / reg. no.: Munyaneza Ngabo — 25/27861

Responsibilities: Schema checks, vectorization, data_report.json, dashboard PDF coordination.

Source files: src/data.py, AI_A1_G15_UIUX.pdf

Branch: main **Commit hashes:**

Member 2 — Regression engineer

Name / reg. no.: Obame Videlina Ketsia — 25/27671

Responsibilities: NumPy gradient descent, scaling, split, loss curve, regression metrics.

Source files: src/regression.py

Branch: **Commit hashes:**

Member 3 — Classification engineer

Name / reg. no.: Halime Brahim Maye — 25/28258

Responsibilities: Stratified split, logistic regression, confusion matrix, cost of errors.

Source files: src/classification.py

Branch: main **Commit hashes:**

Member 4 — Clustering, QA & Reproducibility lead

Name / reg. no.: Umubyiye Marie Merci — 26/38496

Responsibilities: Scaling, k comparison, silhouette scores, cluster outputs, cross-pipeline QA, CLI contract, predict command, requirements, README, evidence, final package.

Source files: src/clustering.py, run_all.py, predict.py, README.md, requirements.txt

Branch: main **Commit hashes:**

Evidence index included in the ZIP

- artifacts/ — eight generated files from run_all.py
- models/ — three fitted models
- evidence/AI_A1_G15_DEMO.mp4 — 90-second unedited demo
- evidence/AI_USE.md — AI tool disclosure

Individual Declaration

Group AI-G15 - signed by every member

Each member confirms that the work attributed to them above was authored by them, that they can explain and modify it during the live verification, and that they have read the institution's academic integrity rules.
